

# Assistant Lighting Designer

## Manchester

### Job Description :

An exciting opportunity for an Assistant Lighting Designer to join an award-winning lighting design team, working on a wide range of prestigious and exciting projects nationally. You will work closely with high profile clients and the design team, designing projects from early concept, through to completion, producing high quality, detail focused information.

This is a great opportunity for an Assistant Lighting Designer to join a growing team, where you can develop within your role and progress through the company.

This role will be supporting our Architectural Lighting design team to deliver bespoke, high level lighting design proposals to clients, as well as supporting internal design teams on a national basis. This will involve working on a variety of architectural projects across a variety of sectors including commercial, residential, healthcare and heritage.

Candidates will preferably be degree or LIA qualified and have a passion for lighting, with knowledge of a range of design software. Whilst this role is based in our Manchester office, the Architectural Lighting team work on projects nationwide, so some travel may be required.

### Duties and Responsibilities:

- + Assist the Architectural Lighting design team and wider business units with lighting design concepts
- + Compile and present design concepts to clients, architects and other members of the project design team
- + Site visits for commissioning and snagging
- + Being involved in the day-to-day running of lighting projects, with the view to project manage individual projects
- + Support and deliver projects nationwide and be willing to travel when required
- + Commit to supporting the strategic business' sustainability policies and the internal environmental programme objectives.

Established over 60 years, our company operates nationally from seven offices across the UK. We invest in our people to grow and retain the best designers.

We are recognised as one of the best at growing our people through training and development. We are one of the first companies to be awarded the We Invest in People Platinum accreditation across the globe.

### Training Programme requirements:

- + Commit to goals and objectives of a career development programme. TB+A will provide both internal and external training where required to help you develop within your role.
- + Support the development of team members and undertake the mentoring of members of the design team.
- + Familiarise yourself with and learn about sustainable low energy initiatives and to share this with other members of your team and within the wider Partnership.
